To Stuff or Not to Stuff?

This and Other Thanksgiving Food Safety Questions

Photo submitted

MS) - Turkey and stuffing. Are there two foods more synonymous with the Thanksgiving holiday? According to the University of Illinois Extension, 97 percent of Americans enjoy turkey on Thanksgiving...

It will be cooked. This is why many people opt for frozen turkeys, so that they can get the best deal and buy ahead. Frozen turkeys will need to be thawed before cooking.

Should I stuff the turkey before cooking? One of the first safety concerns should be with regard to stuffing a raw turkey and then cooking the stuffing and turkey together in the oven.

How do I know the turkey is done? Turkey should be cooked until the internal temperature reads a minimum of 165 F on a meat thermometer when the thickest part of the breast is checked.

What is the best way to thaw a turkey? Turkeys come both fresh and frozen. A fresh turkey should be purchased no more than a day or two before

How to handle leftovers? It's easy to linger at a Thanksgiving table overflowing with food. However, it is not a good idea to package up foods that have been left out for more than two hours.
