## Keeping cool outdoors this summer

Expand your outdoor living spaces with quality retractable awnings from Sunesta and discover the reason that custom manufactured retractable awnings are one of the fastest growing home improvements in the US. Long popular in Europe, Japan and Australia, retractable awnings have been a home improvement mainstay in those countries for over 30 years.

Beautiful, energy efficient retractable awnings have been around for more than 80 years, but now with modern technology, engineering and fabric, Americans are now recognizing the benefits of these wonderful home additions on patios and decks nationwide.

Sunesta-direct awnings are custom manufactured and fabricated from T-10 aircraft gauge aluminum that are then electro-statically powder coated - a finish that is five times more durable than paint. The frame, which has a lifetime warranty, can be operated manually or by remote control. Both the motor and the frame have been tested to 50,000 durable openings and closings. The durable mounting hardware is solid stainless steel.

They utilize only the finest outdoor fabrics available. They are made especially for quality awnings by Sunbrella. Sunbrella fabrics are used on boat, cruise liners, upscale outdoor furniture and more. Sunbrella is considered to be the finest outdoor fabric in the world. The solution dyed acrylic fabric is extremely strong and weather resistant.

Most acrylic outdoor fabric is woven and then dyed and the dye only penetrates the surface. When the fabric is exposed to the relentless heat and ultra violet rays of the sun for any length of time, the color fades and gets a washed out look. But solution dyed acrylic is run through the dye in individual strands before weaving the stripes or color into the fabric. This treatment is much more durable and resistant to sun fading since the color is distributed throughout all the layers of the fabric. When the sun attempts to fade the top layer of color there are many more layers of color underneath, keeping the colors vivid for years to come.

The fabric is also coated with Teflon, which offers UV protection and water proofing. It also seals the fabric against stains and the elements. Maintaining the fabric is simple and easy; simply spray it with a garden hose. It is guaranteed not to fade and is mildew resistant. Sunbrella is considered to be the ultimate outdoor fabric and has a warranty longer than most new cars - 5 full years.

Sunesta-direct is the award winning Sunesta master dealer of the oldest and most respected retractable awning manufacturer in the country. Offering 25 years of engineering and improvements, their awnings are extremely reliable and beneficial. Sunesta-direct not only designs and custom builds retractable awnings for your home, but also installs and services these awnings. Sunesta-direct has literally thousands of very satisfied customers and will happily provide multiple references upon request.

Energy efficient retractable awnings cut the temperature on your patio or deck by 15-20 degrees. It cuts out 98% of the sun's harsh UV rays and 98% of the heat gained through walls, windows and doors, resulting in a 20% to 30% reduction in cooling costs. Retractable awnings from Sunesta-direct will allow you to enjoy that patio or deck that broils in the summer sun by providing a cool, comfortable area of shade at the touch of a button. Not only will a retractable awning save you money on cooling costs, it will also help protect your doorjamb, floor, windows, interior carpet, hardwood floors and furniture from sun fade.

Retractable awnings are custom made especially for your home and provide a giant splash of color on the back of your home where you, your family and guests actually spend your time. They offer shade at any time of the day, maximizing your outdoor living spaces. Each one is custom made in over 300 color choices - either solids or stripes. Retractable awnings are excellent choices for business use also, allowing affordable and reliable shade over outdoor restaurant patios. Marinas and docks on the lake are also excellent locations for a quality retractable awning.

For one-fifth the cost of the average screen porch and one-tenth the cost of a sunroom, you can expand and improve your outdoor living spaces with a retractable awning.

Stop by Fayette Mall, main entrance to see samples of Sunesta-direct's beautiful retractable awnings. They sell, service and install more retractable awnings in Central Kentucky than all other companies combined. With Sunesta-direct you will get real factory direct pricing. All installation personnel are factory trained and are Sunesta-direct employees, not subcontractors.

Sunesta-direct is devoted to one product - retractable awnings. They are Central Kentucky's retractable awning experts. Call 859-270-7210 for more information or to set up an appointment for a free estimate.
