# P.A.W.S. - Spay-Neuter clinic at Blue Licks

Our country has become a nation of pet owners, sharing our households with dogs, cats and a mix of other small animals. About 1/3 of all households own a dog or cat and many share time with their pets; his lap cats, barn cats, house dogs or guard dogs or as special play companions for our children.

While most of these animals are well fed and attended to, many people are unaware of the population of homeless animals wandering our state and the huge number of animals placed in shelters each year that ultimately are euthanized. An estimate has been made, based on shelter reports, that in order to employ all shelters, each household would need to adopt 15 dogs and 45 cats. This does not even include dogs or guard dogs or as special play companions for our children.

The overwhelming fact is that animals have been left to reproduce and have exploded their numbers to a level that is impossible for citizens to house responsibly. The number of cats which can theoretically result from one pregnant mother and her unsprayed or unneutered offspring is staggering. In 7 years one litter could result in 420,000 cats. For dogs, the number is still a whopping 47,000 dogs born in 8 years.

No matter how successful the adoption rates at shelter, the only true solution to the numbers problem is through an ongoing spay and neuter program. Currently the number of animals euthanized in the US is estimated at 4 to 6 million. As startling as these numbers are, it is a great reduction from the approx. 13 million animals killed in 1973, before the awareness and practice of spay/neuter.

The Blue Licks Commemorativ Commission (Friends of Blue Licks) have made a generous and necessary step to help sponsor a Spay/Neuter Clinic at Blue Licks Battlefield State Rept Park, serving Nicholas, Robertson, Fleming, & surrounding counties. The clinic is being organized by resort park manager, Stefanie Gaither, and will be operated by volunteer veterinarians and assistants. The clinic will be held on Sunday, February 15, 2009 and will be offered free of charge to a limited number of people bringing their pets. To reserve a spot, please call 800-443-7008.

Unfortunately we anticipate a much greater demand for this service than we can accommodate at present and so if you wish to support future spay/neuter clinics in this community, donations are accepted and appreciated. Contact Stefanie Gaither at 800-443-7008 for ways you can help. We hope to be able to make this an ongoing project. Currently Bourbon County offers an ongoing low-cost spay & neuter program at P.A.W.S. (which includes vaccinations & Rabies shots). For more information, contact the Paris Animal Welfare Society (P.A.W.S.) at 859-289-9397. They do accept "out of county" animals.
