STUDENT SPOTLIGHT

Adan Gancerez

I have chosen Adan Gancerez for the Student Spotlight Showcase. As a freshman in my Life Skills class last year, and I now have him in my Parenting class this year. Adan has shown much progress over the year. He is an excellent student! His attitude is outstanding. He is always willing to participate in discussions, and never fails to make intelligent remarks. His assignments are always completed with 100% effort and are very rewarding to read. Adan is definitely the "ideal" student, and I feel very fortunate to have him in class. He will definitely excel in life!

—Ms. Letcher

Whitney Morris

I am pleased to nominate Whitney Morris for the Student Spotlight Showcase. Two words describe her. Dedicated and Determined. She was in the yearbook class last year during 4th period. Her time ended in December but she devoted her lunch period and several hours each night to work on it. She dedicated countless hours to make it in order to finish the history book for the students, parents, and faculty of Nicholas County High School. This year, Whitney is the editor-in-chief and also one of the photographers. Her pride in the production of this book is colossal, and I am very proud of her.

—Mrs. Fugitt

Katie Trussell

I am pleased to nominate Miss Katie Trussell for this week's Student Spotlight. Katie is a member of my Spanish II class. Katie takes her studies seriously. She is in class ready to go first thing in the morning, with a smile on her face! I appreciate that about her. Katie has worked hard and has proven to be an excellent Spanish student. Way to go, Katie!

—Mrs. Fugitt

Kendall Willis

I would like to nominate Kendall Willis for my student spotlight showcase. Kendall is a senior in my Greenhouse Technology class. If you have had the opportunity to work with Kendall, you know she is a very bright, delightful young lady. Kendall is a first year agriculture student and she is doing a wonderful job in class. Not only does she participate, but she has one of the highest grades in the class. I have been our first large exam that the students have taken and Kendall is the only student in class who received a perfect on the exam.

Not only does Kendall do a great job in the classroom, she has also showed some participation in the Nicholas County FFA. Kendall has participated in our local scarecrow project as well as some local events around the county. She will participate in regional events later in the year. Kendall is an outstanding young lady who is a pleasure to work with in the classroom as well as in the FFA. I am excited for this year to work with Kendall more, but also disappointed that she will not see her senior year to get involved.

Flying south
A gaggle of geese are shown flying south for the winter.

Many county residents believe the unusually cool, wet summer are indications that this coming winter will be harsher than normal.
